

Metropolitan College of New York

BBA in Information Technology Management

The Bachelor of Business Administration (BBA) in Information Technology Management at Metropolitan College of New York focuses on the analytical and managerial aspects of the information systems.

This occurs in tandem with developing students' skills in advanced computing technology, such as Cloud computing, mobile applications development, web development and digital marketing, information technology risk and project management, database development and administration, data analytics, and cyber-security. The curriculum also embraces business and

management competencies to prepare students for the ever-changing information management field and leadership positions.

The curriculum for this program also embraces business and management competencies to prepare students for the ever-changing information management field and leadership positions.

Graduates of this program will be prepared to take the exams for CompTIA Cloud+, Mobility+, IT Project+, CSA (Cybersecurity Analyst) and Microsoft MCDBA (Microsoft Certified Database Administrator), leading to certifications.

WHAT MAKES MCNY DIFFERENT?

Founded in 1964 by educational visionary and activist Audrey Cohen, more than 12,000 alumni have earned degrees from Metropolitan College of New York. Our unique Purpose-Centered Education model helps you learn better by blending theory, and real-world practice, all within the lens of social justice.

MCNY is an accredited, not-for-profit college, with two campuses, one located in lower Manhattan and another in The Bronx. In addition to providing professional development opportunities, our undergraduate and graduate programs are offered through three schools: the Audrey Cohen School for Human Services and Education, the School for Business, and the School for Public Affairs and Administration.
