

Metropolitan College of New York Master of Science in Project Management

The Master of Science in Project Management is for people pursuing a career in project management, who see themselves managing projects or overseeing complex undertakings. Earning a master's can help individuals qualify for more advanced management positions. A degree in project management aims to teach how to think critically and implement leadership theories and methodologies in real-life situations.

While earning a project management degree, students cultivate the knowledge and skills necessary to complete project-based work in diverse industries. The MS in Project Management will prepare professionals with budgeting, leadership, communication, and organization skills. Students will learn resource allocation, time management, strategies and negotiation, initiation and planning, implementation and closure.

Qualified Project Managers are an invaluable asset to any business, non-profit agency or corporation. Graduates can secure positions in education, government and community affairs, engineering, computer and information systems, healthcare

industries, construction, corporations and most other industries. The global economy is becoming more and more interdependent and a degree in project management teaches versatile skills enabling professionals to move fluidly between industries. Project managers are in very high demand across all sectors.

A critical part in the development of a student's Constructive Action (CA) is the field placement. Students will be required to apply what they have learned in the classroom with experience in real-world situations, companies or organizations. As such, they must identify their proposed venture for their Constructive Actions. In the three CAs of the proposed curriculum, students will acquire basic research techniques and methodologies necessary to explore and analyze trends and needs, relate those needs to their respective proposed professional venture, develop a comprehensive strategic plan, and finally set in motion their respective entrepreneurial plans by identifying sources of financing and evaluating their success and failures.

WHAT MAKES MCNY DIFFERENT?

Founded in 1964 by educational visionary and activist Audrey Cohen, more than 12,000 alumni have earned degrees from Metropolitan College of New York. Our unique Purpose-Centered Education model helps you learn better by blending theory, and real-world practice, all within the lens of social justice.

MCNY is an accredited, not-for-profit college, with two campuses, one located in lower Manhattan and another in The Bronx. In addition to providing professional development opportunities, our undergraduate and graduate programs are offered through three schools: the Audrey Cohen School for Human Services and Education, the School for Business, and the School for Public Affairs and Administration.
